Cultural Perspectives: Fall 2018

Courses must be taken for a **letter grade** in order to count towards the ILR Distribution Requirement. Undergraduate education should provide students with the opportunity to develop an appreciation of the similarities and differences among cultures around the world. This requirement should engage students in the study of ideas, histories and cultures of countries beyond the United States and Western Europe. Upper-level language courses about culture (including film and literature) will only fulfill this requirement if they focus on non-Western European languages and/or nations.

Students may submit a request to the Office of Student Services to have a Cornell University course added to one of the lists. A request must include a full course description and a syllabus outlining the course readings.

Bolded courses are offered in the Fall 2018
